General Neurosurgery

Your Neurosurgeon was: Dr. Scott P Leary

Your Diet is: Soft Foods (i.e., soups, pastas) until soreness resolves, then may advance diet at tolerated.

Wound/Skin Care:

- **We placed a skin glue called Dermabond on your incision.**
- **You may leave your wound open to air at all times. No dressing is needed.**
- **Please wash your wound daily with soap and water starting tomorrow.**
- **Do not submerge or soak your wound x 4 weeks.**
- **Avoid placing any ointments to wound x 4 weeks.**
- **Leave this Dermabond in place for at least two weeks.**
- **You do not have any sutures that need to be removed.**

Activity Limitations are as follows:

- Walk more than 6x / day: it will help you recover faster and may help prevent blood clots in your legs.
- Wear your LUMBAR Corset at all times when not in bed or sitting in a chair.
- Avoid extreme or repetitive range of motion to your back to allow your surgery to heal.
- No Lift/Carry anything over 10 pounds.
- NO strenuous activity /No Active exercise/ No contact sports until you are told to do by our office in your follow up appointment.
- You may not work or Drive while taking Narcotic pain medications and until you are cleared to do so by our office.**
- No bathtub, hot tub, Jacuzzi, swimming pool or ocean activity for 6 weeks due to your risk for further injury
- Do not drink alcohol while taking narcotic pain medications: May call 211 for San Diego Alcohol cessation resources if needed.
- Do not smoke cigarettes, cigars, Vape, or Marijuana until your graft has healed (up to one year). May call 1-(800) No Butts for cessation resource.

Discharge Medications:

- See Medication Reconciliation form:**
 - May restart **all** your home medications.
 - Do not restart the following medications:
 - Do not use Aspirin / Motrin / Ibuprofen / until released to do so.
- For **mild/moderate** pain please use:
 - Over the counter Tylenol (acetaminophen) Extra Strength. Please take 2 tabs (1000mg) by mouth every 6 hours for two weeks.
 - For **severe** Pain: Oxycodone/Tramadol
 - Please **stop** all Narcotic pain meds as quickly as possible and destroy any unused pills remaining from your prescription.
 - For muscle spasms: Flexeril/Zanaflex
